WHERE DID THE POWER GO?

The electricity account, in every 100 units supplied.

2023 / GENERATED OR PURCHASED

423.495 GWh IN TOTAL

91.4

Sales

386.977 GWh

2.9

Internal use

12.337 GWh

5.7

Transmission loss

24.181 GWh

The difference between supply and sales is not all loss.

Source: CSO / LUCELEC, Electricity Output and Consumption, 2023 column.

Shares calculated from units generated/purchased. Internal use is separate from transmission loss. This 2023 energy account is not a tariff breakdown or a forecast of bill savings.
