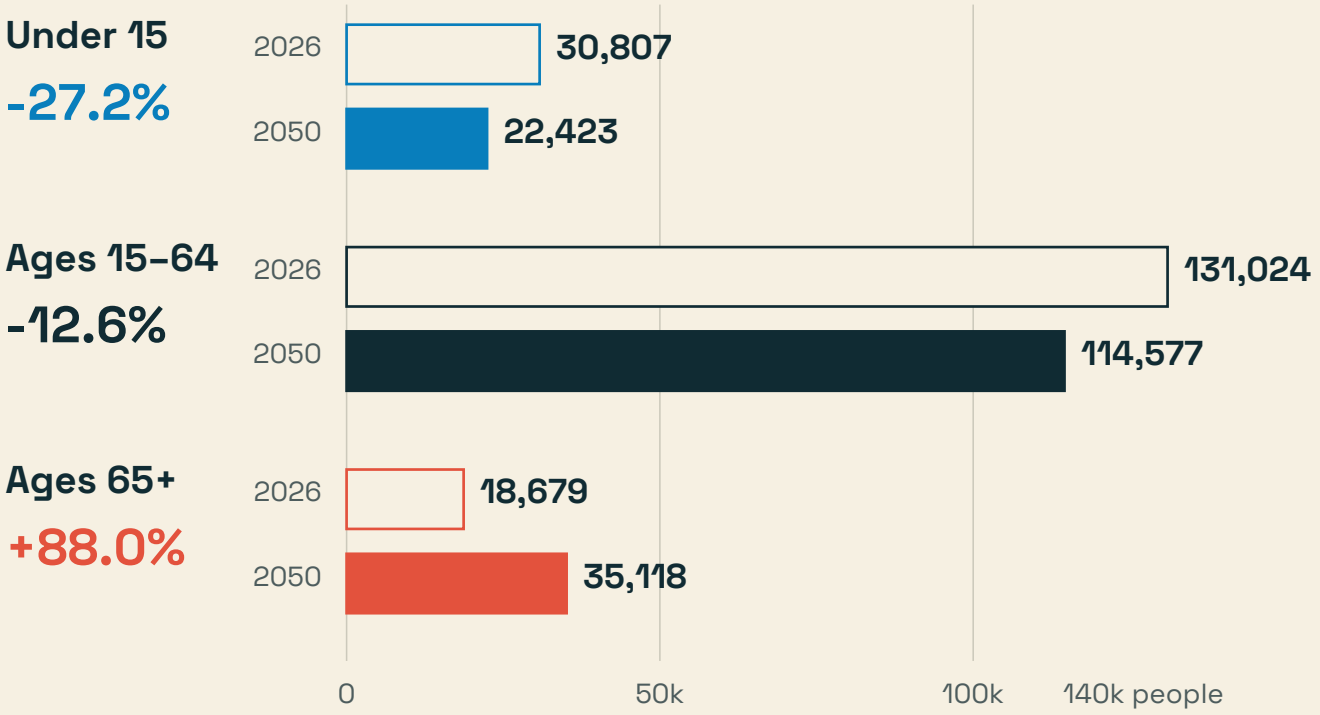
SAME ISLAND.
DIFFERENT AGES.

A changing age mix changes what we need to plan.

UN BENCHMARK · PROJECTED RESIDENTS



80+ 2,980 → 8,001 2026 → 2050

Residents aged 80+ are included in the 65+ bars.

Source: Michel (2026), Population Future, p. 8; reproduced UN WPP 2024 benchmark.

July projections, not census counts. Bars share one scale; each percentage compares that age group with its own 2026 value. Age alone does not tell us who works, provides care or needs help.
