

A budget is the
START.

A service is the
TEST.

Four evidence checks for a public investment

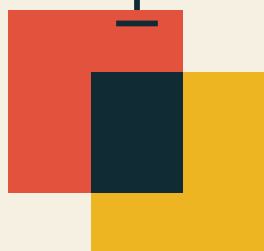

01 APPROVE *the resources*

What is funded, and for which year?

EVIDENCE

Approved allocation + funding source

02 AWARD *and manage*

Who delivers, at what cost and by when?

EVIDENCE

Contract + milestones + payments

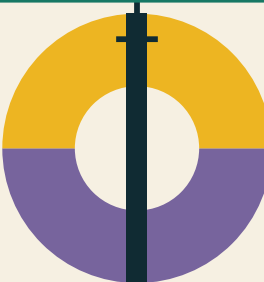

03 VERIFY *the delivery*

Does the work meet its specification?

EVIDENCE

Completion records + independent checks

04 KEEP *it working*

Can people use it, and is it maintained?

EVIDENCE

Access + reliability + staffing + upkeep

Follow the evidence from money to public benefit.

Source: SLPA explanatory framework, 24 October 2026.

Evidence checks, not a fixed statutory sequence or a measured pipeline. Stages can overlap. Spending alone does not prove completion or a working service.
