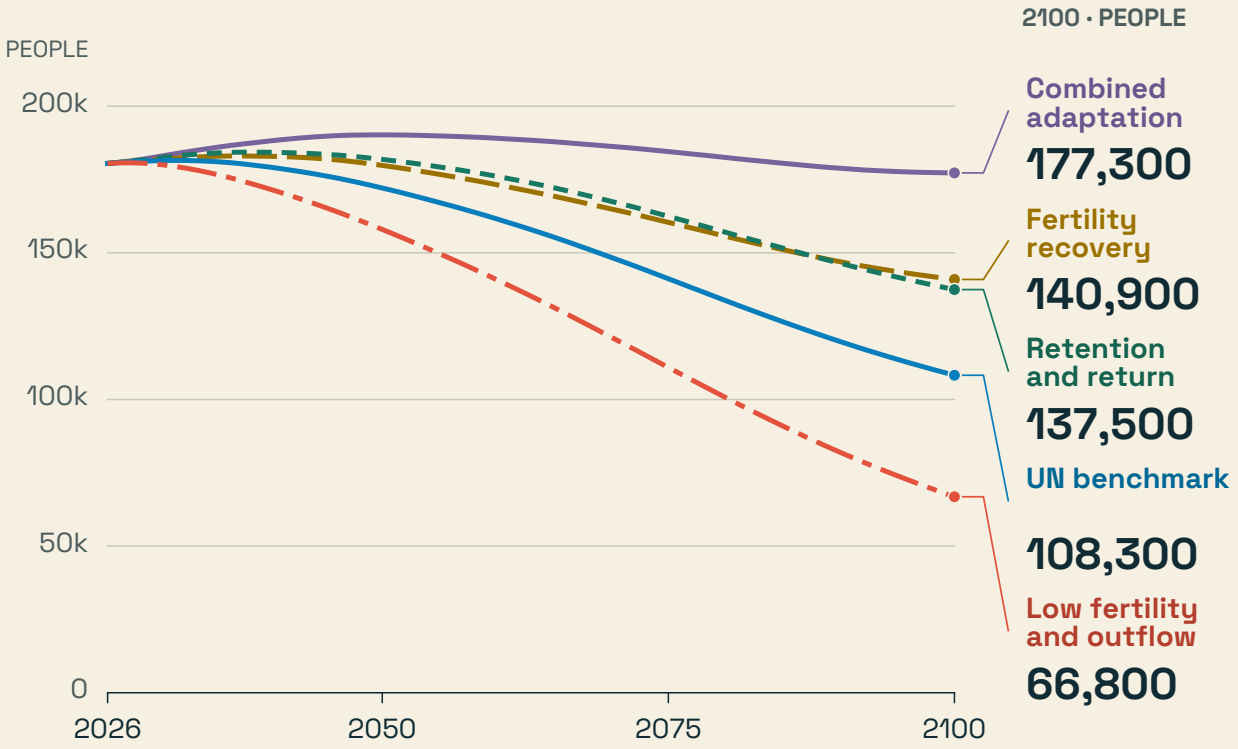
ONE ISLAND. FIVE PATHS.

Different assumptions. Different futures.

CONDITIONAL POPULATION PATHS · 2026–2100

All start at 180,510 residents in 2026.



Fertility and migration change the path. Planning across several futures helps Saint Lucia prepare before pressures become urgent.

Source: Michel (2026), Population Future, pp. 6–8; UN WPP 2024 + SLPA scenarios.

July projections. Fertility: recovery toward 1.8 births/woman; low case: 1.15. Retention/outflow: ±2 net residents per 1,000/year vs benchmark. Changes phased in; no probabilities assigned. Labels rounded to 100. Assumptions: chart page.
